

SOLUTIONS FOR OPHTHALMOLOGY KITS POSITIONING

Easy Fit System Baskets

Kit is placed in:

A. GRID + SILICONE SUPPORTS

Pag. 3-49

B. GRID + SILICONE MAT

Pag. 50-55

General technical features:

BASKET and LID

- Completely made of stainless steel AISI304
- rounded edges with smooth surfaces and absence of sharp edges, to ensure maximum safety for the user during handling and avoid any possibility of breakage of soft packaging
- Basket perforation opening: 4x4 mm holes on the base to allow better water penetration during the washing phases and 2x2 mm on the perimeter
- Cover perforation opening: 4x4 mm perforations
- predisposition for fixing the lid placed on both sides of the basket
- Lid with ratchet closure system, practical and safe
- Low weight thanks to special production technology
- electropolished finish to prevent high sterilization temperatures of altering the colour and facilitate drying process and improve corrosion resistance
- Suitable for steam and low temperature sterilization

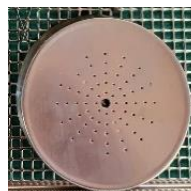

REMOVABLE INSTRUMENT HOLDER

- The basket is used in combination with a series of silicone supports for the stable and safe fixing of surgical instruments during the decontamination, washing, packaging, sterilization and transport processes
- Instrument holder made of 100% non-toxic green silicone (latex free)
- Support bar made of stainless steel AISI304
- T20 torx fixing screw (No. 2 per stand) made of stainless steel
- removable support to allow maximum adjustment according to the length of the instrument to be positioned
- Suitable for steam and low temperature sterilization

FIXING PIN

- Made in stainless steel AISI304
- T20 torx fixing screw (No. 1 per pin) made of stainless steel
- to place the ring instruments or lock the mat
- Suitable for steam and low temperature sterilization

CIRCULAR PERFORATED BOX

- made in stainless steel AISI304
- dim. Ø75 mm with central hole Ø4 mm for fixing
- fastening system (T20 torx screw + nut) made of stainless steel
- Suitable for steam and low temperature sterilization

FLEXYMAT MULTI-PERFORATION MAT

- Material: 100% non-toxic platinum silicone elastomer in green colour (Latex free)
- Alternating rows of conical tips (every 2 mm):
 - high conical drill bits: Ø2x15h mm (Ø base), space between one and the other 5 mm
 - low conical tips: Ø1x4h mm (Ø base)
- Drainage and steam circulation holes: 4.5x4.5 mm
- rounded base feet: Ø2,5x2h mm (Ø base)
- Mat height: 19 mm (H 2 mm, excluding feet and conical tips)
- Suitable for steam and low temperature sterilization

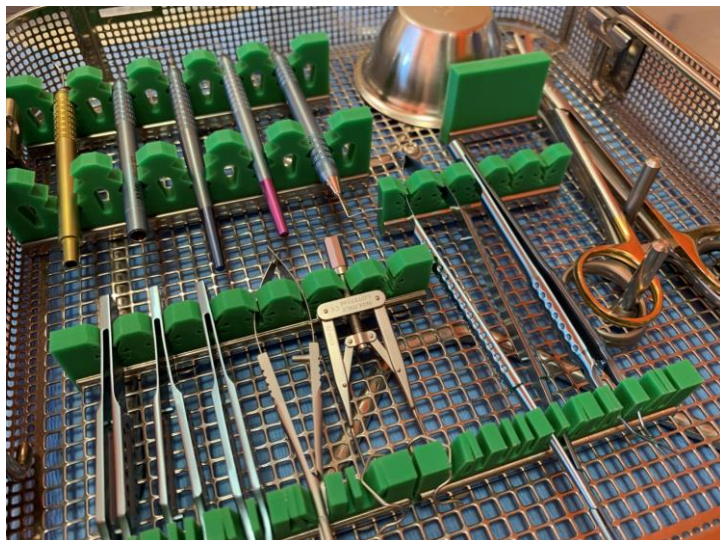

REMOVABLE SOFT LIPS SUPPORT FOR INSTRUMENT STOPS

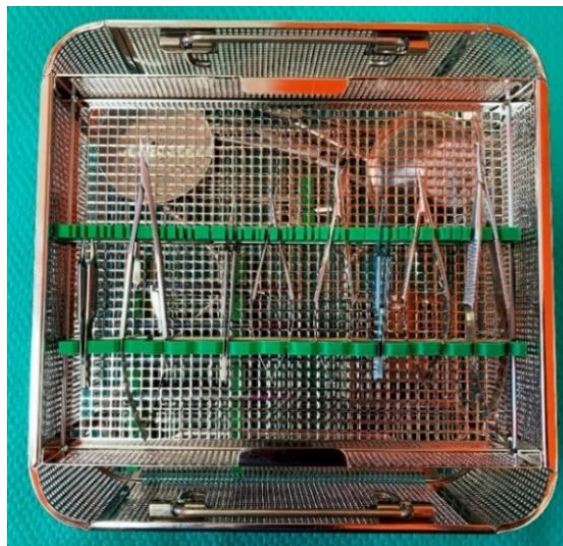

- Material: 100% non-toxic green silicone (latex free)
- Soft lips support bar and fixing nuts made of stainless steel AISI304
- positioned on the cover to lock the instrumentation (both for removable supports and for mat)
- Suitable for steam and low temperature sterilization

Series 73, 72 & 71 - Specific Features:

- Complete with standard lid with recessed handle
- TL series complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- Recommended packaging: 1/2 US container 300x300 or soft packing

Others - Specific Features:

- series dim. 270x170 mm and dim. 250x155 complete with flat lid with central grip handle
- series dim. 200x170 mm complete with standard cover with recessed handle
- 63J series without grab handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- recommended packaging: MINI container 285x185 or soft packaging

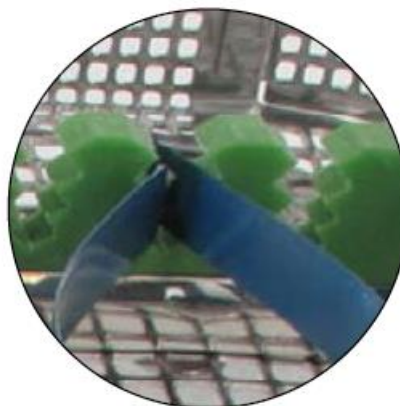

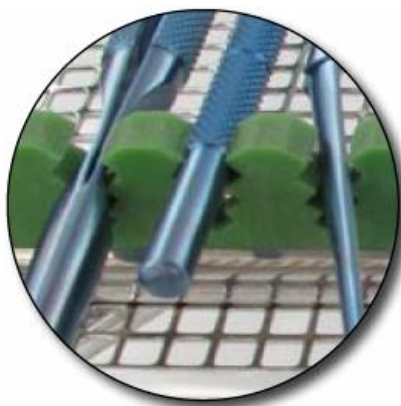

SILICONE SUPPORT GEOMETRY

Quick and easy fastening of all the different instrument geometries. All housings allow the instrument to be positioned and to facilitate cleaning, washing and sterilization of the most contaminated area

Art. 71KIT-12

Description:

STAINLESS STEEL BASKET L.F. 240x240x50h mm COMPLETE WITH LID with HANDLE, 3 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x50h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 3 removable supports
- 3 stainless steel pins for positioning ring instruments
- Recommended packaging: 1/2 US container 300x300 or soft packing

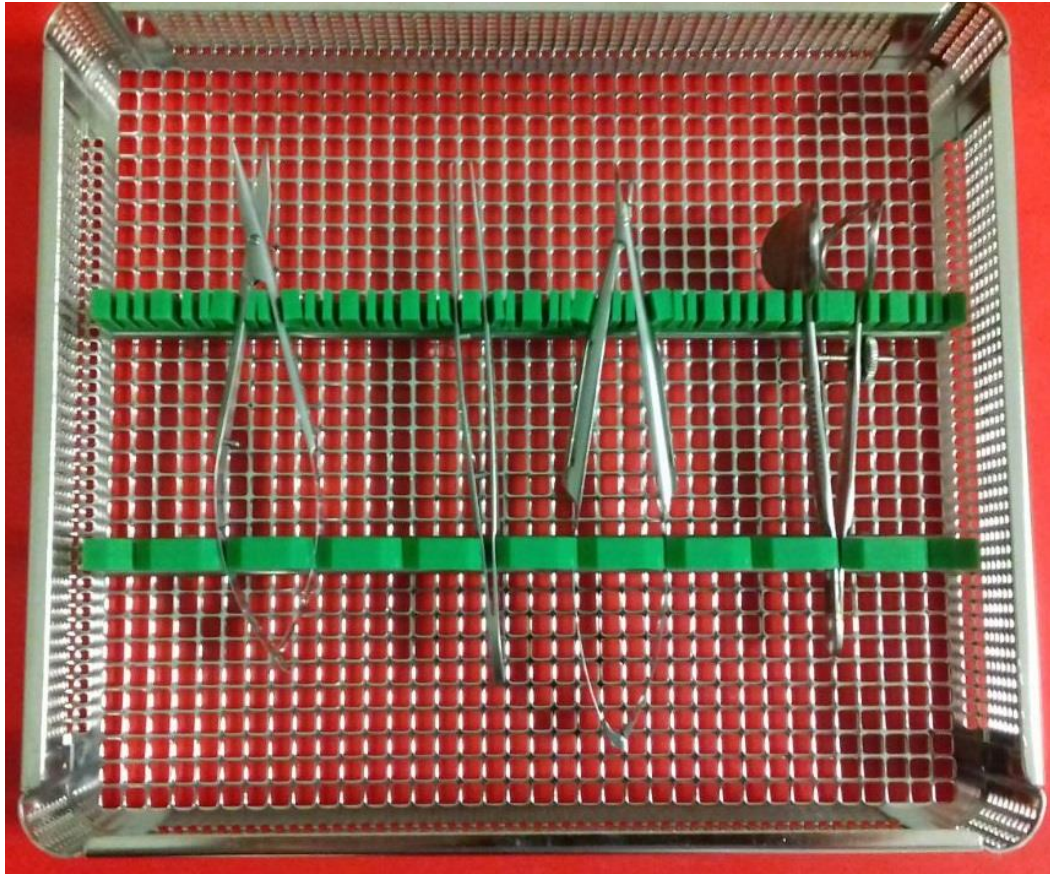

CHALAZION

Art. 77/2MICRO

Description:

STAINLESS STEEL BASKET L.F. 200x170x35h mm COMPLETE WITH LID with HANDLE and 2 REMOVABLE SILICONE SUPPORTS

Basket base (standard lid)

Specific Features:

- Dimensions: 200x170x35h mm
- Complete with standard lid with recessed handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 2 removable supports
- recommended packaging: MINI container series 285x185 or soft packaging

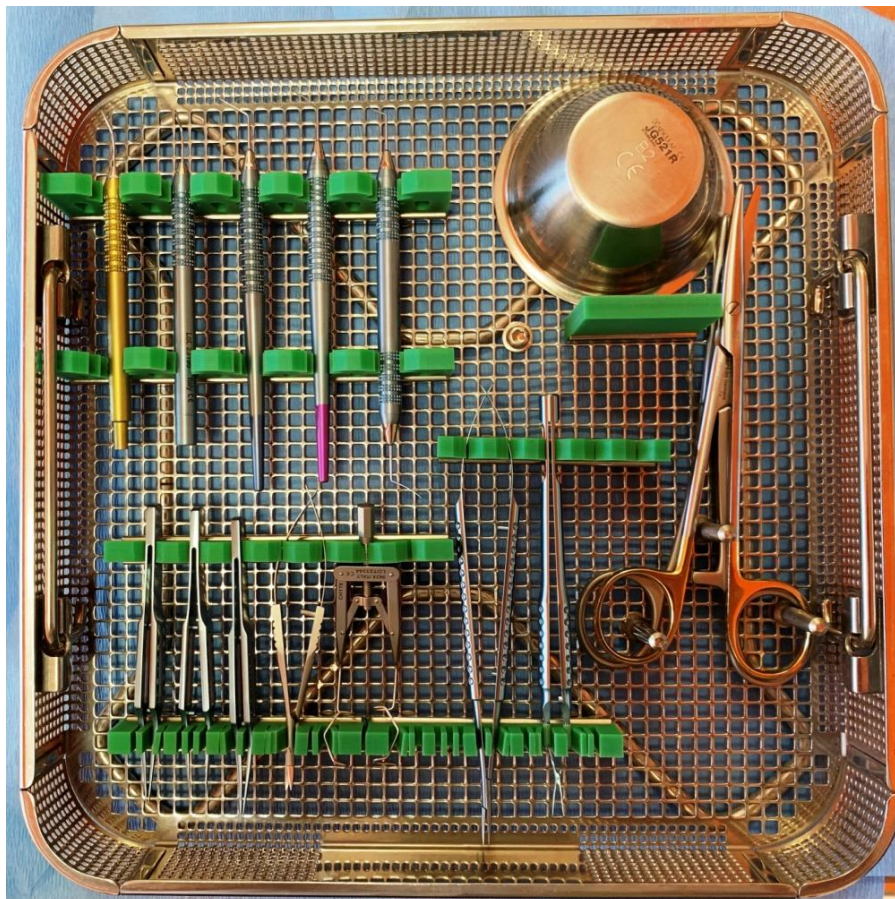

CATARACT	Art. 71KIT-6

Description:

STAINLESS STEEL BASKET L.F. 240x240x45h mm COMPLETE WITH LID with HANDLE, 7 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x45h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 7 removable supports
- 3 stainless steel pins for positioning ring instruments
- Recommended packaging: 1/2 US container 300x300 or soft packing

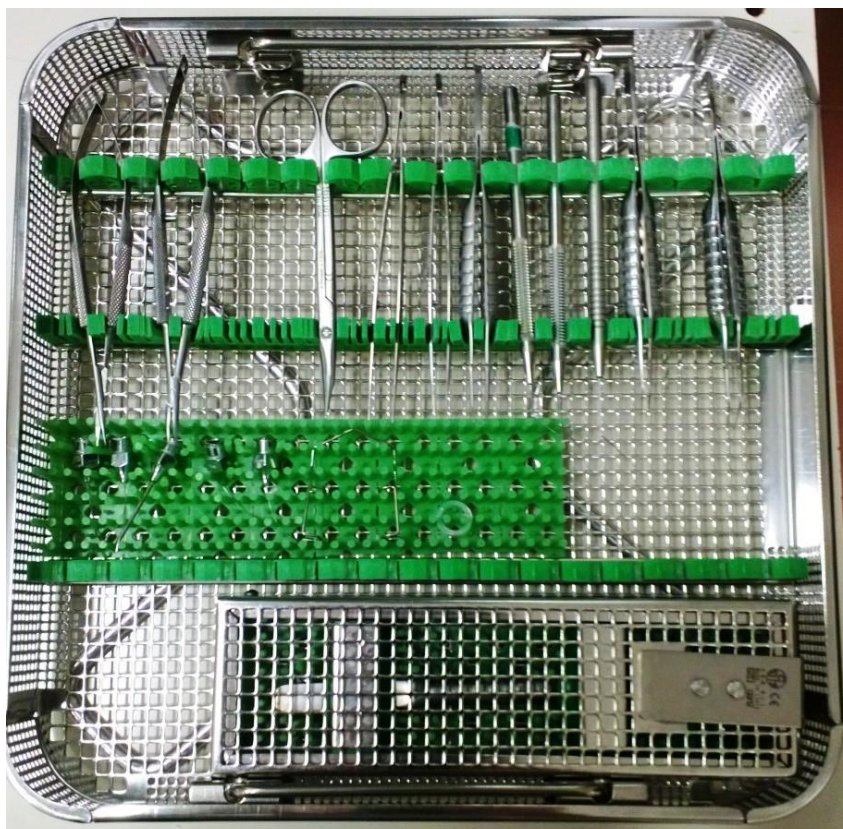

CATARACT

Art. 71/4RE

Description:

STAINLESS STEEL BASKET L.F. 240x240x41h mm COMPLETE WITH LID with HANDLE and SILICONE SOFT LIPS, 3 REMOVABLE SILICONE SUPPORTS, MAT and MINI EQUIPPED INTERNAL BASKET

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x41h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 3 removable supports
- 1 multi-perforated silicone mat
- 1 removable silicone soft lip in the lid
- 1 mini basket dim. 170x50x25h mm with hinged lid, mat and 2 silicone soft lips
- Recommended packaging: 1/2 US container 300x300 or soft packing

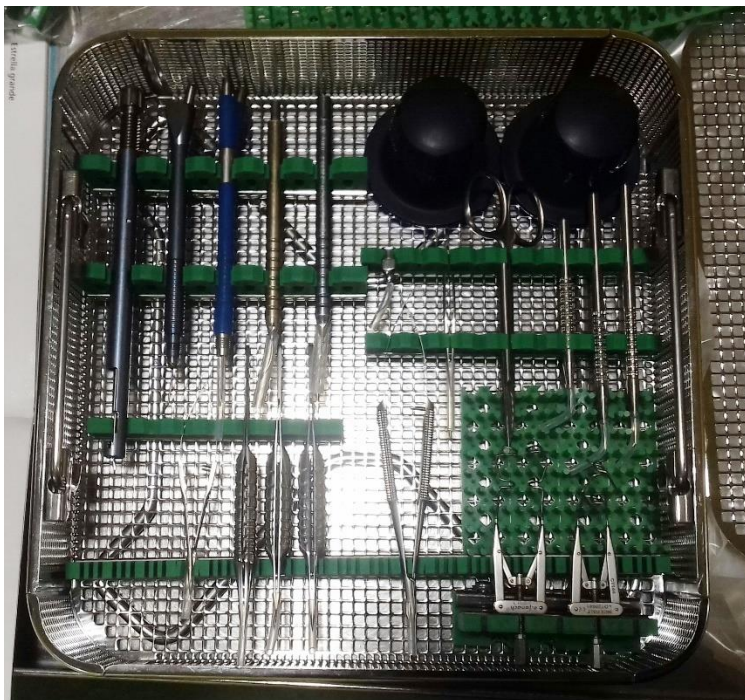

CATARACT

Art. 71PSM

Description:

STAINLESS STEEL BASKET L.F. 240x240x70h mm COMPLETE WITH LID with HANDLE, 15 REMOVABLE SILICONE SUPPORTS, MAT and 2 PINS

Basket base + lid with supports for phacoemulsifier fixing

Specific Features:

- Dimensions: 240x240x70h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 15 removable mounts
- 1 multi-perforated silicone mat
- 2 stainless steel pins to lock the mat
- Recommended packaging: 1/2 US container 300x300 or soft packing

STAINLESS STEEL BASKET L.F. 250x155x35h mm COMPLETE WITH LID with HANDLE, 5 REMOVABLE SILICONE SUPPORTS, MAT, SILICONE SOFT LIPS and 5 PINS

Basket base (standard lid with SILICONE SOFT LIP)

Specific Features:

- Dimensions: 250x155x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 5 removable supports
- 5 stainless steel pins for positioning the ring tools and locking the mat
- 1 multi-perforated silicone mat
- 1 removable silicone soft lip in the lid
- recommended packaging: MINI container series 285x185 or soft packaging

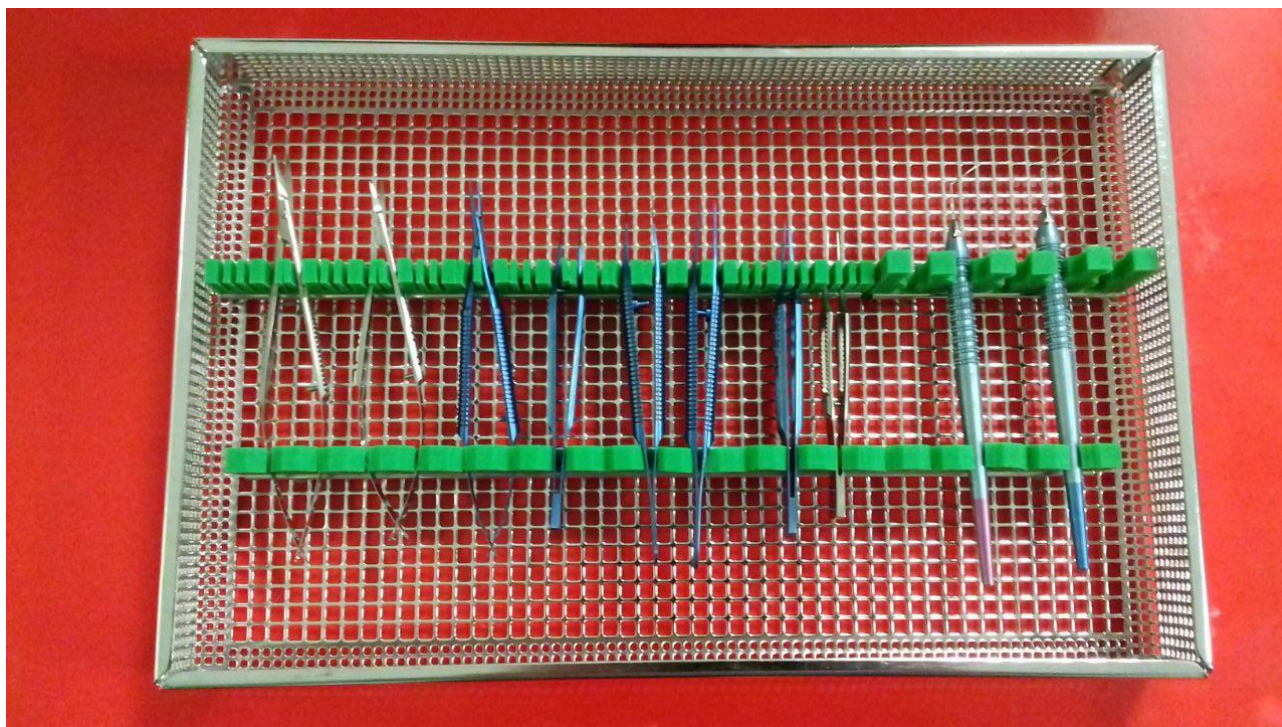

CATARACT BASIC TOOLS

Art. 77KIT-21

Description:

STAINLESS STEEL BASKET L.F. 270x170x35h mm COMPLETE WITH LID with HANDLE and 4 REMOVABLE SILICONE SUPPORTS

Basket base (standard lid)

Specific Features:

- Dimensions: 270x170x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 4 removable supports
- recommended packaging: MINI container series 285x185 or soft packaging

CATARACT + 2 PHATOEMULSIFIER

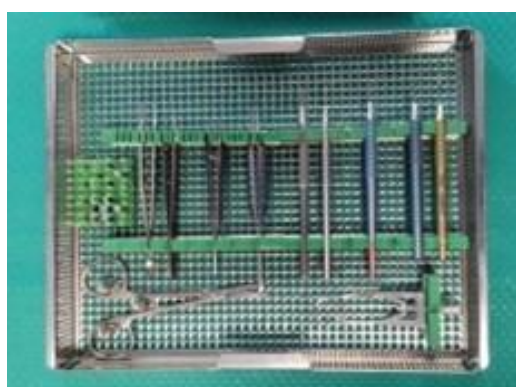

Art. 71KIT-1

Description:

STAINLESS STEEL BASKET L.F. 240x240x90h mm COMPLETE WITH LID with HANDLE and SILICONE SOFT LIP, INTERNAL TRAY, 11 REMOVABLE SILICONE SUPPORTS, MAT and 6 PINS

Basket base for 2 phacoemulsifiers

Internal tool tray

Base + Inner Tray

Lid with silicone soft lip

Specific Features:

- Dimensions: 240x240x90h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- Upper inner tray made of stainless steel AISI304
- 11 removable supports
- 6 stainless steel pins for positioning the ring tools and locking the mat
- 1 multi-perforated silicone mat
- 1 removable silicone soft lip in the lid
- Recommended packaging: 1/2 US container 300x300 or soft packing

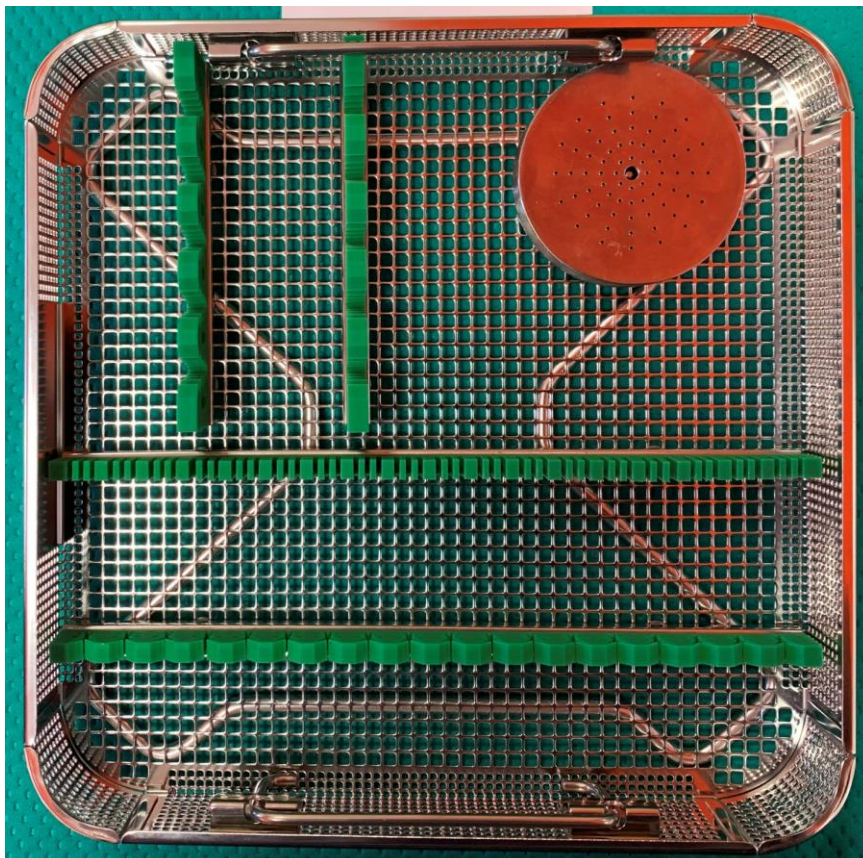

CATARACT SUPPLEMENT	Art. 71KIT-13
----------------------------	----------------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x45h mm COMPLETE WITH LID with HANDLE, 4 REMOVABLE SILICONE SUPPORTS and BOX FOR CANNULAS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x45h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 4 removable supports
- Circular perforated box for cannulas
- Recommended packaging: 1/2 US container 300x300 or soft packing

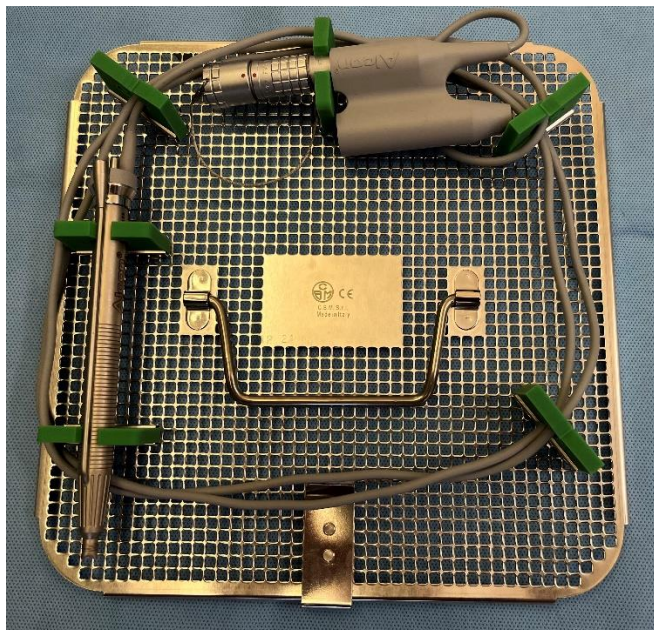

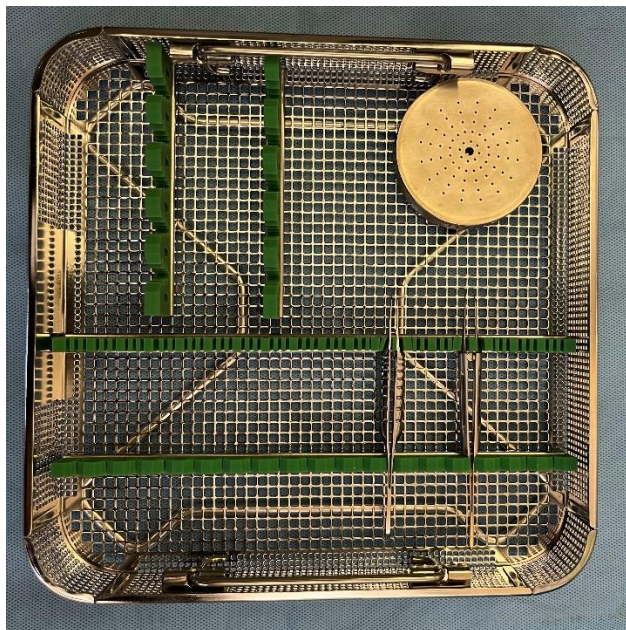

CATARACT SUPPLEMENT + PHATOEMULSIFIER

Art. 71KIT-23

Description:

STAINLESS STEEL BASKET L.F. 240x240x45h mm COMPLETE WITH LID with HANDLE, 10 REMOVABLE SILICONE SUPPORTS and BOX FOR CANNULAS

Basket base + lid with supports for phacoemulsifier fixing

Specific Features:

- Dimensions: 240x240x45h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 10 removable supports
- Circular perforated box for cannulas
- Recommended packaging: 1/2 US container 300x300 or soft packing

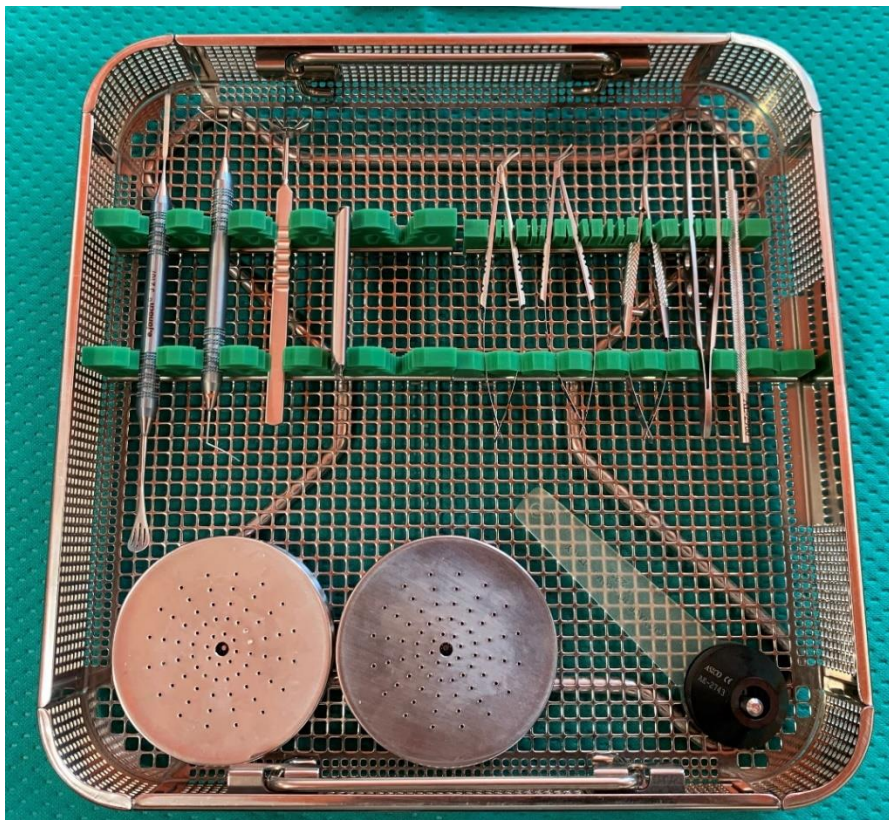

DALK+PKP	Art. 71KIT-17
-----------------	----------------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x45h mm COMPLETE WITH LID with HANDLE, 4 REMOVABLE SILICONE SUPPORTS, PIN and 2 BOXES FOR CANNULAS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x45h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 4 removable supports
- 2 circular perforated boxes for cannulas
- 1 stainless steel pin
- Recommended packaging: 1/2 US container 300x300 or soft packing

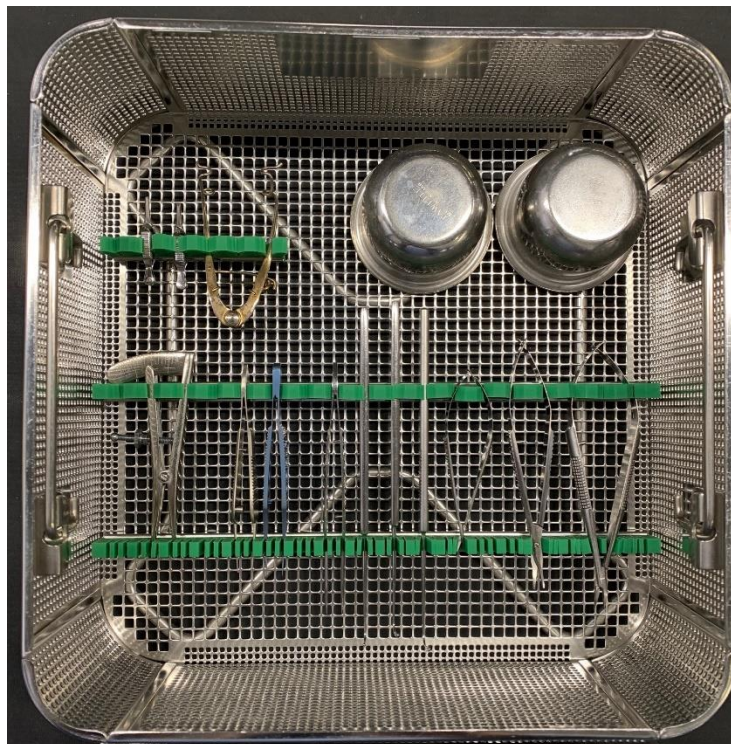

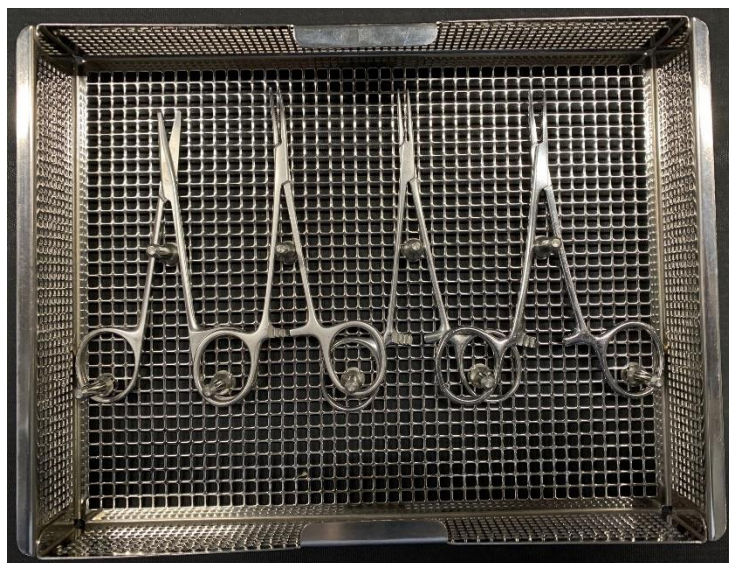

RETINAL DETACHMENT	Art.	71/3-RETINAL-SET
---------------------------	-------------	-------------------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x90h mm COMPLETE WITH LID with HANDLE, INTERNAL TRAY, 3 REMOVABLE SILICONE SUPPORTS and 15 PINS

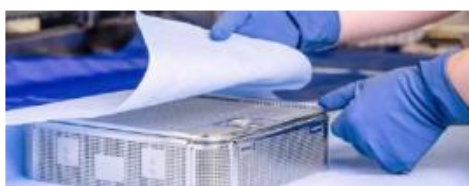

Basket base (standard lid)

Upper inner tray

Specific Features:

- Dimensions: 240x240x90h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- Upper inner tray made of stainless steel AISI304
- 3 removable supports
- 15 stainless steel pins for positioning ring instruments and capsules

STAINLESS STEEL BASKET L.F. 240x240x90h mm + STAINLESS STEEL BASKET L.F. 240x240x50h mm COMPLETE WITH LID with HANDLE, 7 REMOVABLE SILICONE SUPPORTS, MINI BASKET, CANNULA BOX and 3 PINS

Basket base 240x240x90, 2 removable silicone supports, mini-basket, cannula box and 3 pins

Basket base 240x240x50 complete with lid with handle and 5 removable silicone supports

Specific Features:

- 1 basket dimensions: 240x240x90h mm with grab handles
- 1 basket dimensions: 240x240x50h mm without grab handles
- 1 flat lid with central grip handle
- Handle made of stainless steel AISI304
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 7 removable supports
- mini basket
- Circular perforated box for cannulas
- 3 stainless steel pins for positioning ring instruments
- Recommended packaging: 1/2 US container 300x300 or soft packing

TEAR DUCTS

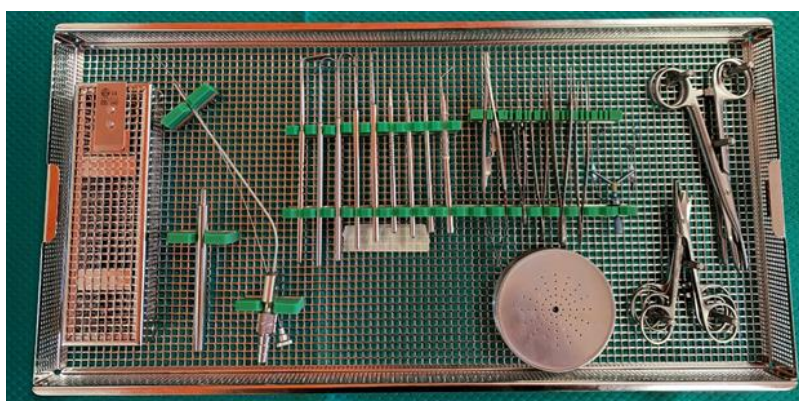

Art. 75KIT-8

Description:

STAINLESS STEEL BASKET L.F. 540x240x90h mm COMPLETE WITH LID with HANDLE, INTERNAL TRAY, 3 DIVIDERS, MINI BASKET, 8 REMOVABLE SILICONE SUPPORTS, 6 PINS and CANNULAS BOX

Basket base (standard lid)

Upper inner tray

Specific Features:

- Dimensions: 540x240x90h mm
- Complete with flat lid with central grip handle
- handles made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- Upper inner tray made of stainless steel AISI304
- 8 removable supports
- 6 stainless steel pins for positioning ring instruments
- 3 partitions positioned in the base of the basket
- mini basket
- Circular perforated box for cannulas
- Recommended packaging: 1 US 600x300 container or soft packing

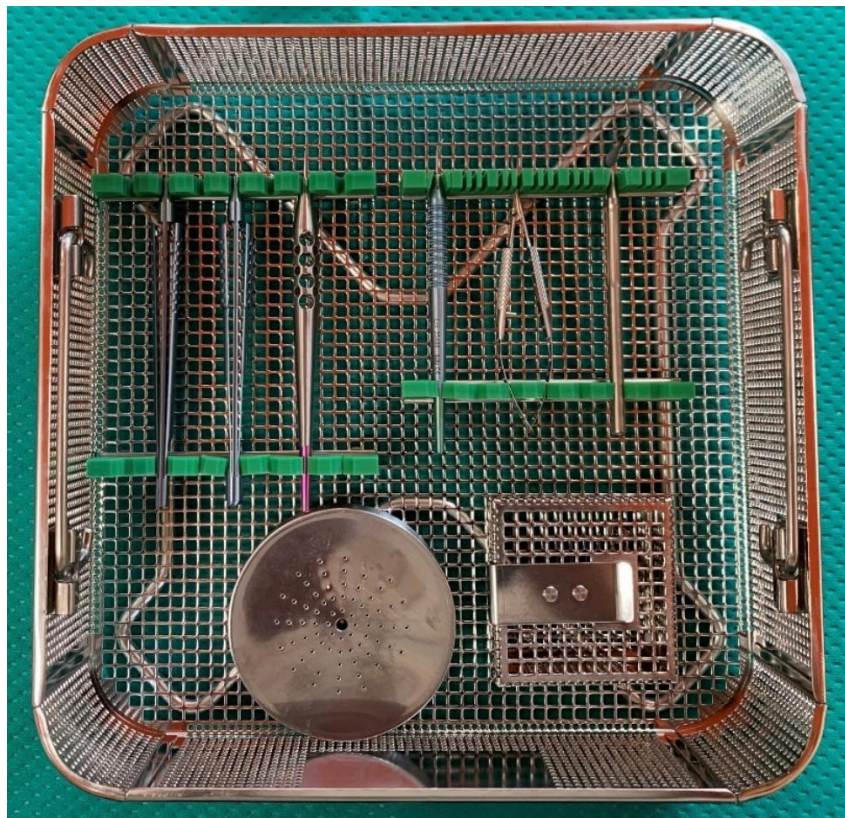

DSAEK	Art. 71KIT-16

Description:

STAINLESS STEEL BASKET L.F. 270x170x35h mm COMPLETE WITH LID with HANDLE and 2 REMOVABLE SILICONE SUPPORTS

Basket base (standard lid)

Specific Features:

- Dimensions: 270x170x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 2 removable supports
- recommended packaging: MINI container series 285x185 or soft packaging

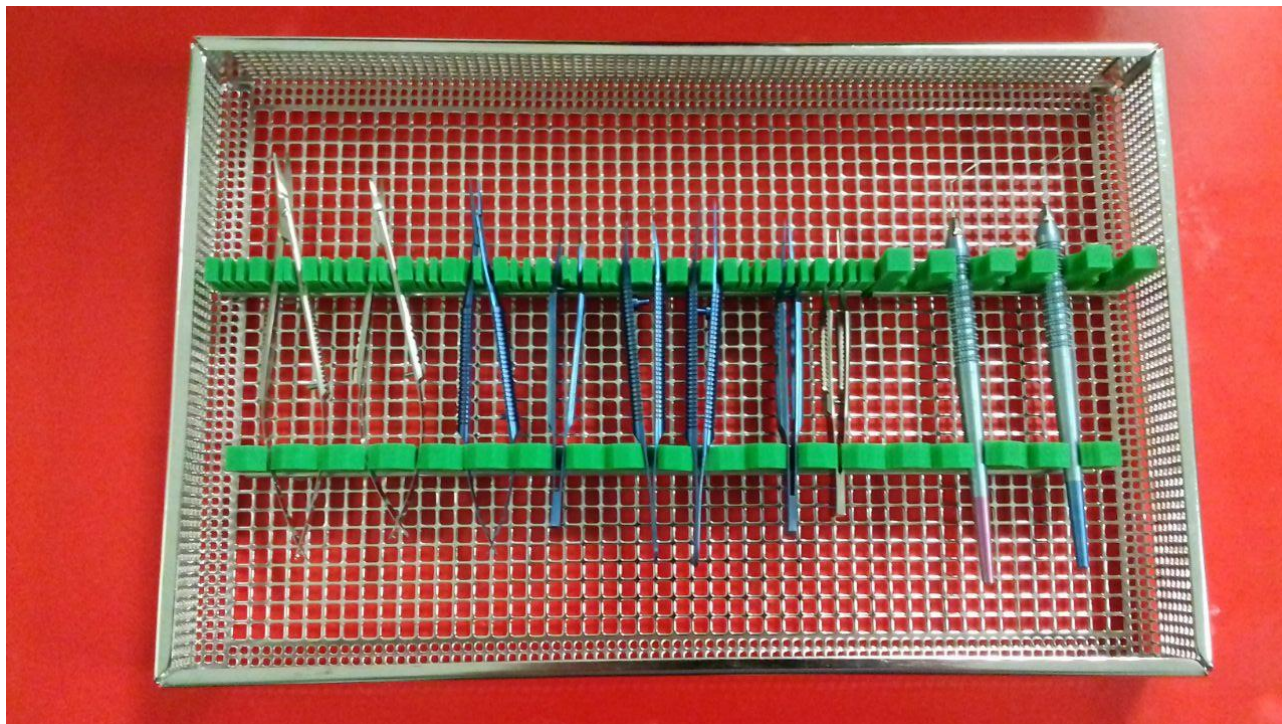

GLAUCOMA BASE KIT

Art. 77KIT-21

Description:

STAINLESS STEEL BASKET L.F. 270x170x35h mm COMPLETE WITH LID with HANDLE and 3 REMOVABLE SILICONE SUPPORTS

Basket base (standard lid)

Specific Features:

- Dimensions: 270x170x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 3 removable supports
- recommended packaging: MINI container series 285x185 or soft packaging

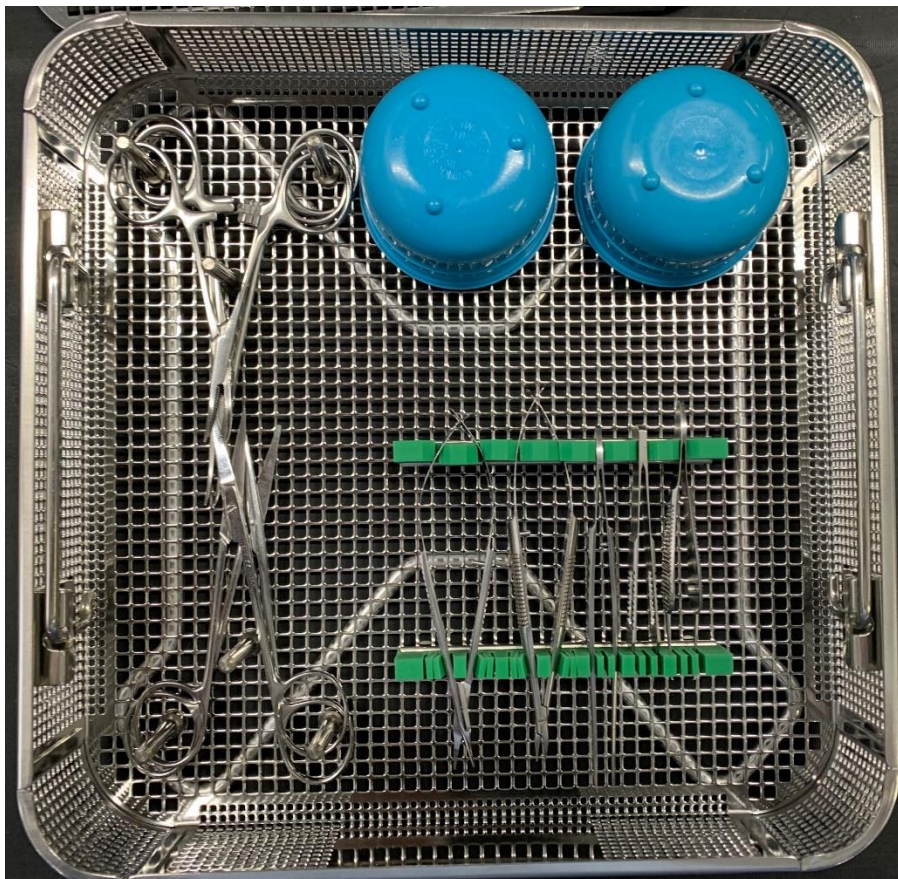

EYELID	Art. 71/1-LID-SET
---------------	--------------------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x50h mm COMPLETE WITH LID with HANDLE, 2 REMOVABLE SILICONE SUPPORTS and 12 PINS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x50h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 2 removable supports
- 12 stainless steel pins for positioning the ring instruments of the capsules
- Recommended packaging: 1/2 US container 300x300 or soft packing

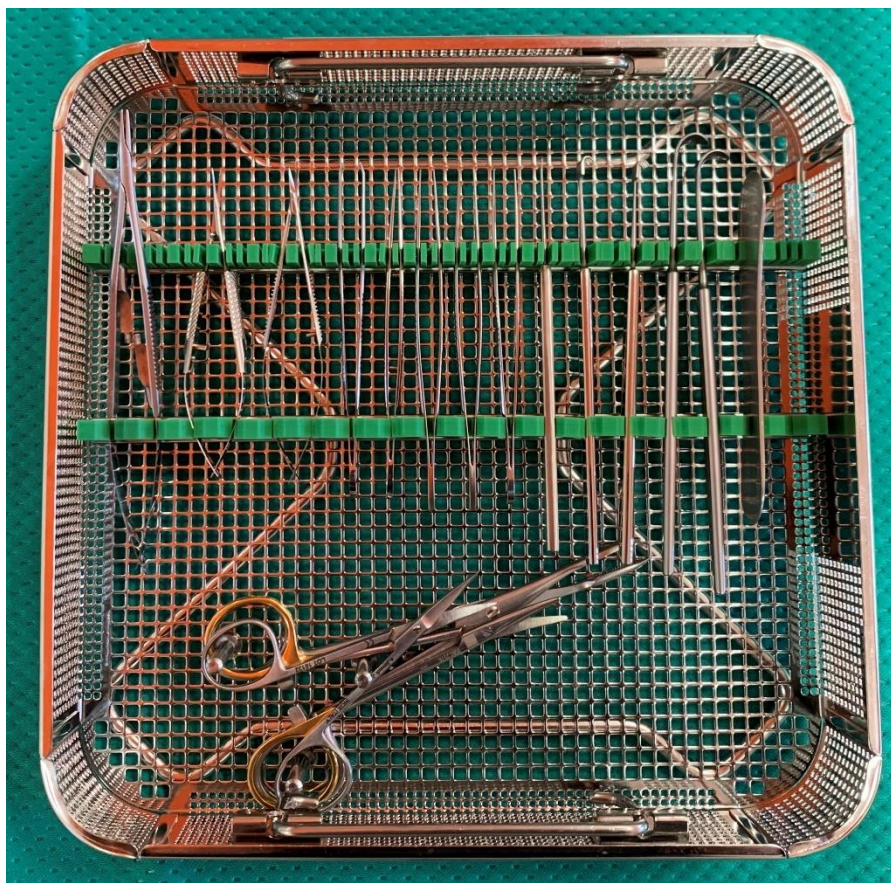

MAJOR EYELID	Art.	71KIT-9
---------------------	-------------	----------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x50h mm COMPLETE WITH LID with HANDLE, 2 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x50h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 2 removable supports
- 3 stainless steel pins for positioning ring instruments
- Recommended packaging: 1/2 US container 300x300 or soft packing

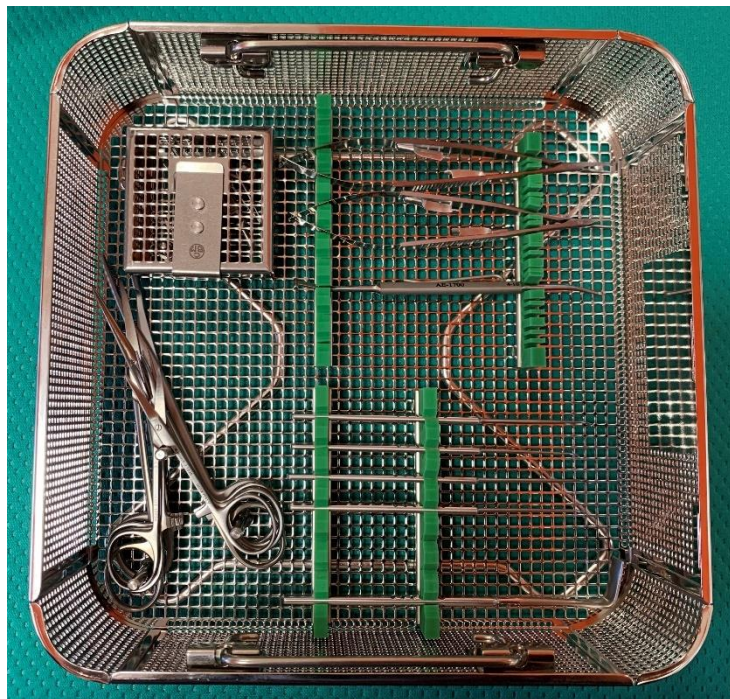

PLUMBING

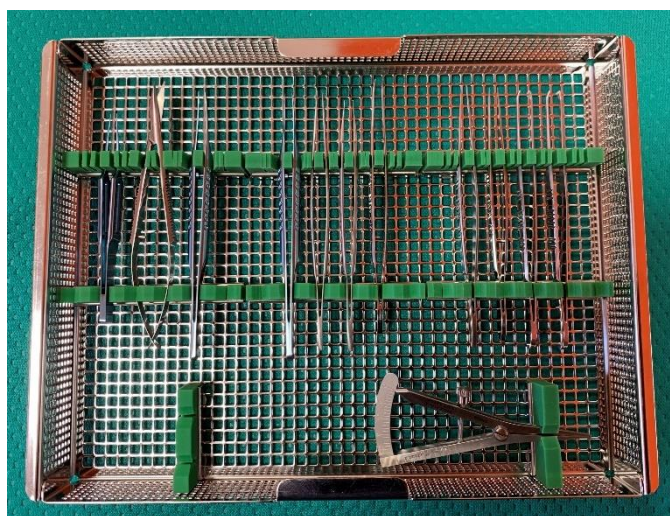

Art. 71KIT-7

Description:

STAINLESS STEEL BASKET L.F. 240x240x70h mm COMPLETE WITH LID with HANDLE, INTERNAL TRAY, MINI BASKET, 8 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Upper inner tray

Specific Features:

- Dimensions: 240x240x70h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without full tray
- Upper inner tray made of stainless steel AISI304
- 8 removable supports
- 3 stainless steel pins for positioning instruments
- mini basket
- Recommended packaging: 1/2 US container 300x300 or soft packing

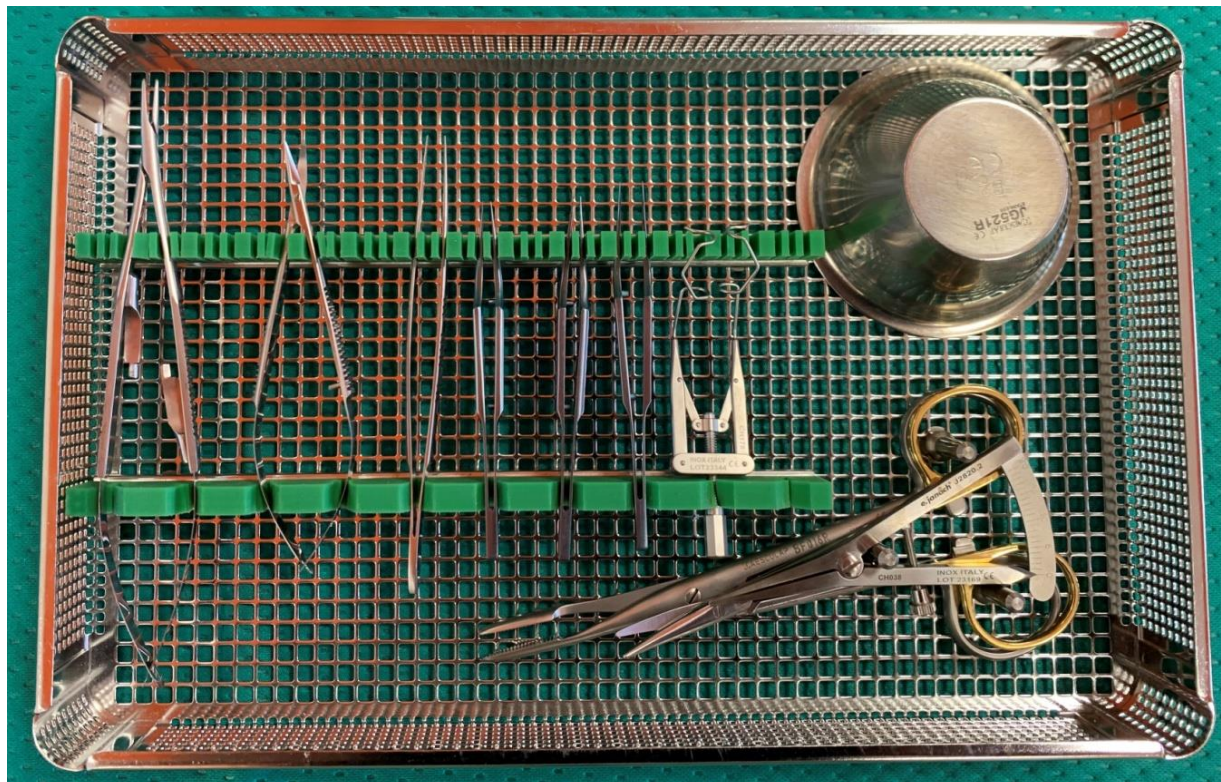

PTERYGIUM

Art. 77KIT-15

Description:

STAINLESS STEEL BASKET L.F. 270x170x35h mm COMPLETE WITH LID with HANDLE, 2 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Specific Features:

- Dimensions: 270x170x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 2 removable supports
- 3 stainless steel pins for positioning ring instruments
- recommended packaging: MINI container series 285x185 or soft packaging

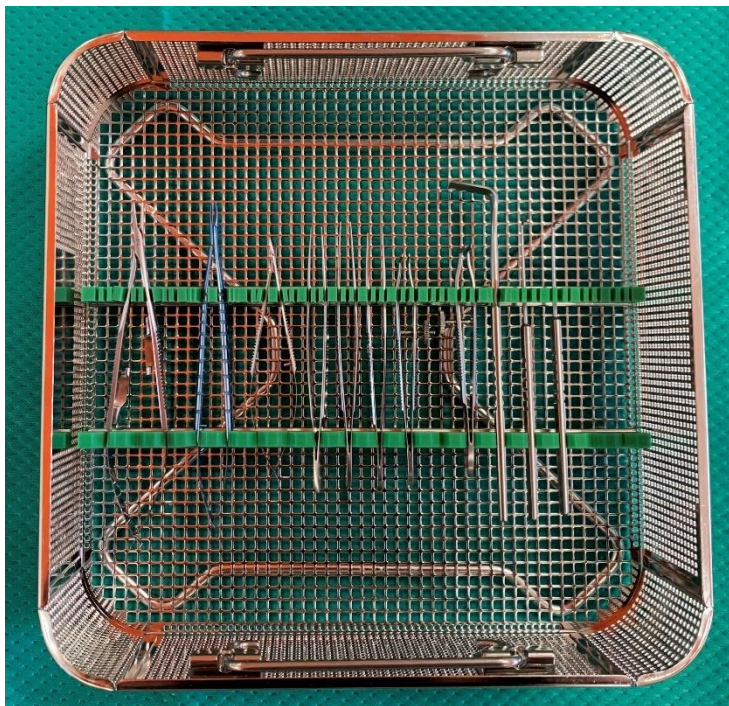

STRABISMUS

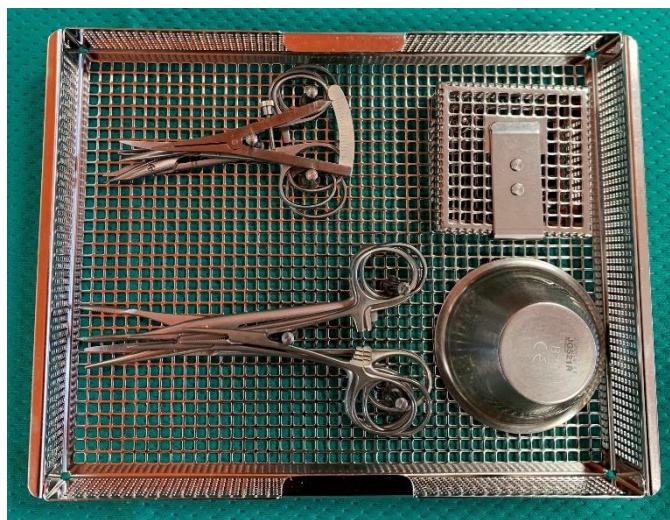

Art. 71KIT-11

Description:

STAINLESS STEEL BASKET L.F. 240x240x70h mm COMPLETE WITH LID with HANDLE, INTERNAL TRAY, MINI BASKET, 2 REMOVABLE SILICONE SUPPORTS and 6 PINS

Basket base (standard lid)

Upper inner tray

Specific Features:

- Dimensions: 240x240x70h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- Upper inner tray made of stainless steel AISI304
- 2 removable supports
- 6 stainless steel pins for positioning ring instruments
- mini basket
- Recommended packaging: 1/2 US container 300x300 or soft packing

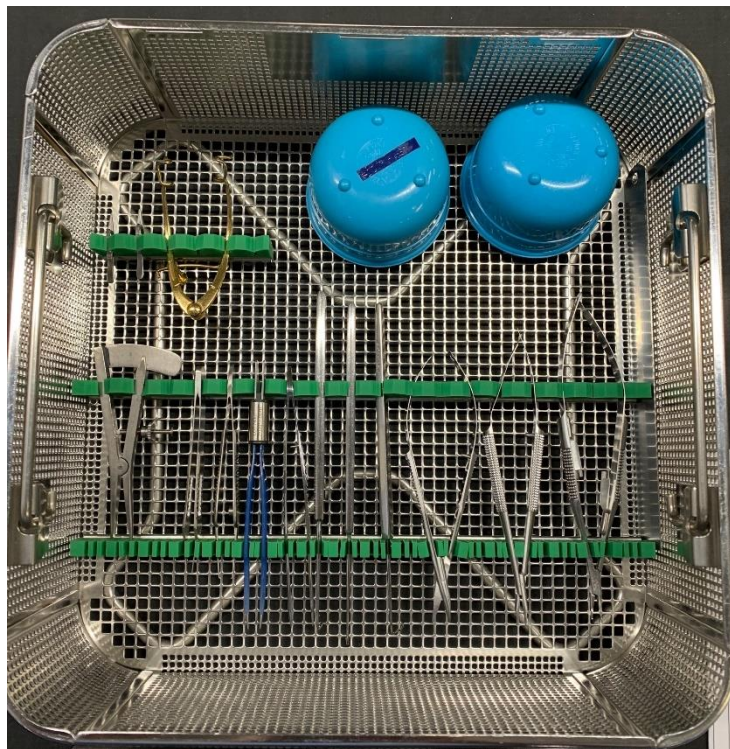

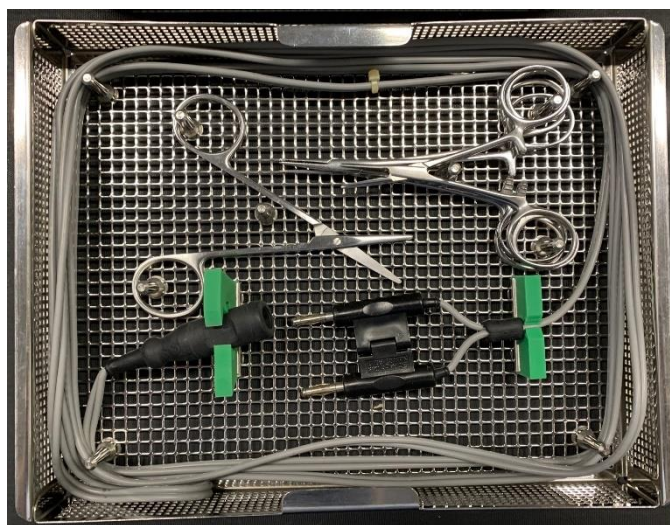

STRABISMUS	Art. 71/3-SQUINT-SET
-------------------	-----------------------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x90h mm COMPLETE WITH LID with HANDLE, INTERNAL TRAY, 5 REMOVABLE SILICONE SUPPORTS and 16 PINS

Basket base (standard lid)

Upper inner tray

Specific Features:

- Dimensions: 240x240x90h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- Upper inner tray made of stainless steel AISI304
- 5 removable supports
- 16 stainless steel pins for positioning ring instruments and capsules
- Recommended packaging: 1/2 US container 300x300 or soft packing

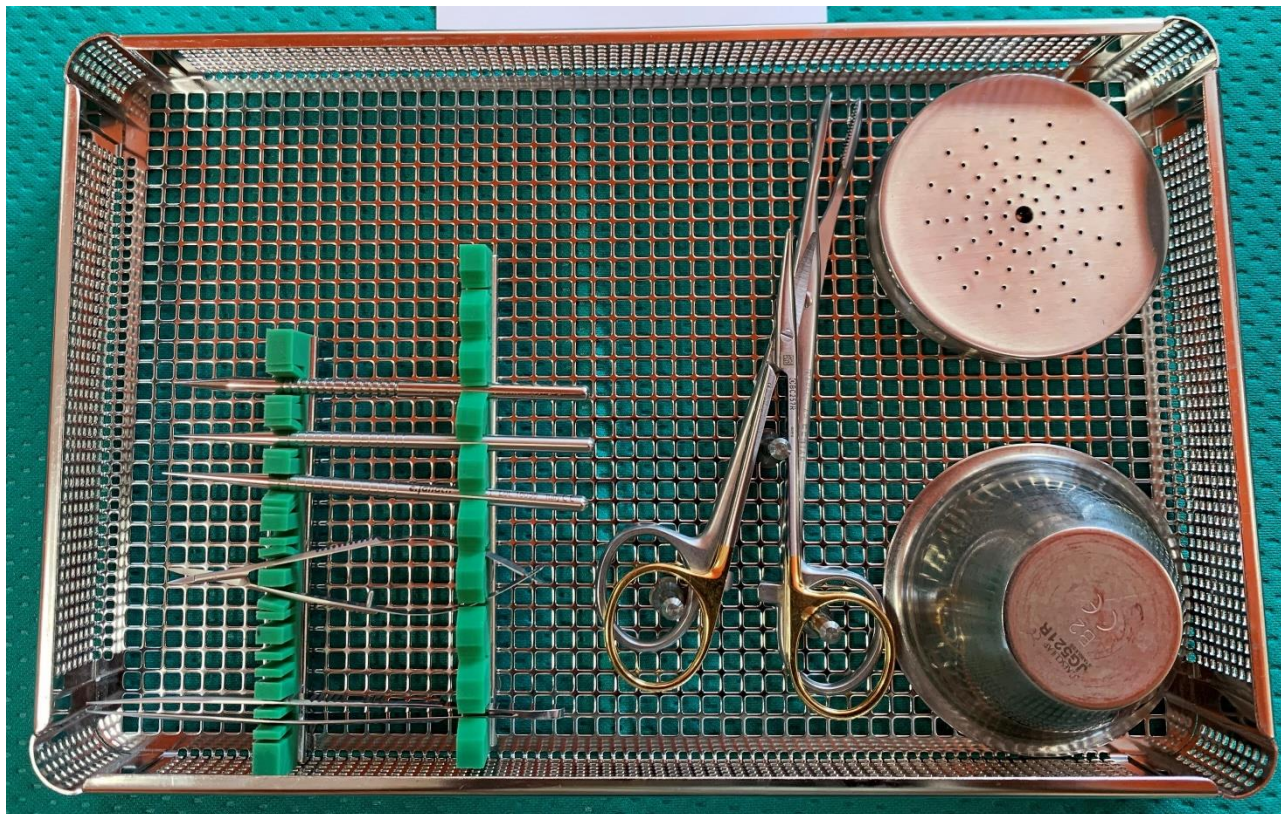

STRICTUROTOMIA

Art. 77KIT-18

Description:

STAINLESS STEEL BASKET L.F. 270x170x35h mm COMPLETE WITH LID with HANDLE, 2 REMOVABLE SILICONE SUPPORTS, 3 PINS and BOX FOR CANNULAS

Basket base (standard lid)

Specific Features:

- Dimensions: 270x170x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 2 removable supports
- 3 stainless steel pins for positioning ring instruments
- Circular perforated box for cannulas
- recommended packaging: MINI container series 285x185 or soft packaging

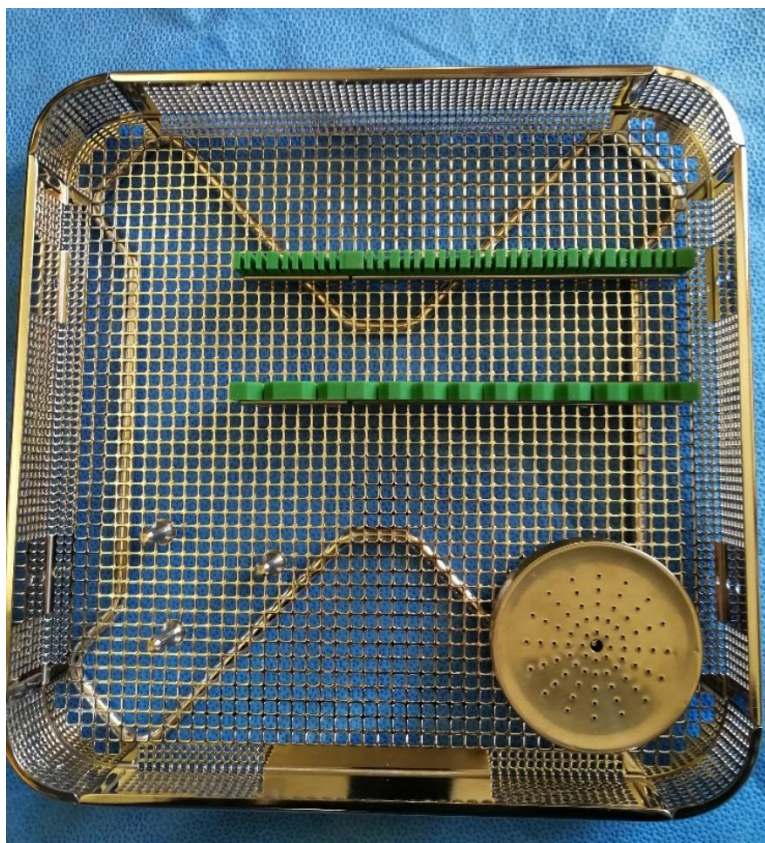

STRICTUROTOMIA	Art.	71KIT-19
-----------------------	-------------	-----------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x41h mm COMPLETE WITH LID with HANDLE, 4 REMOVABLE SILICONE SUPPORTS, 3 PINS and BOX FOR CANNULAS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x41h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 4 removable supports
- 3 stainless steel pins for positioning ring instruments
- Circular perforated box for cannulas
- Recommended packaging: 1/2 US container 300x300 or soft packing

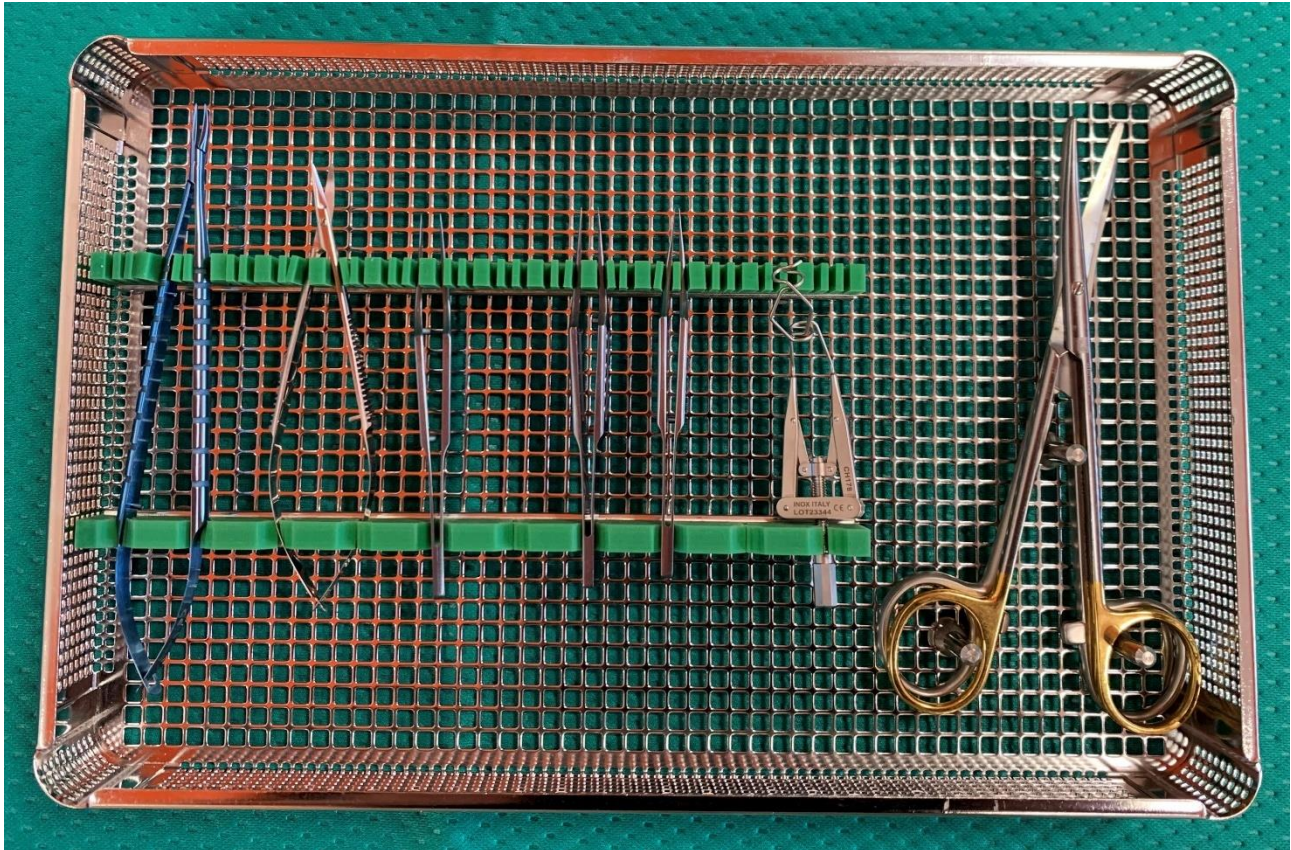

CORNEAL SUTURE - EYELID SUTURE	Art.	77KIT-16
---------------------------------------	-------------	-----------------

Description:

STAINLESS STEEL BASKET L.F. 270x170x35h mm COMPLETE WITH LID with HANDLE, 2 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Specific Features:

- Dimensions: 270x170x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 2 removable supports
- 3 stainless steel pins for positioning ring instruments
- recommended packaging: MINI container series 285x185 or soft packaging

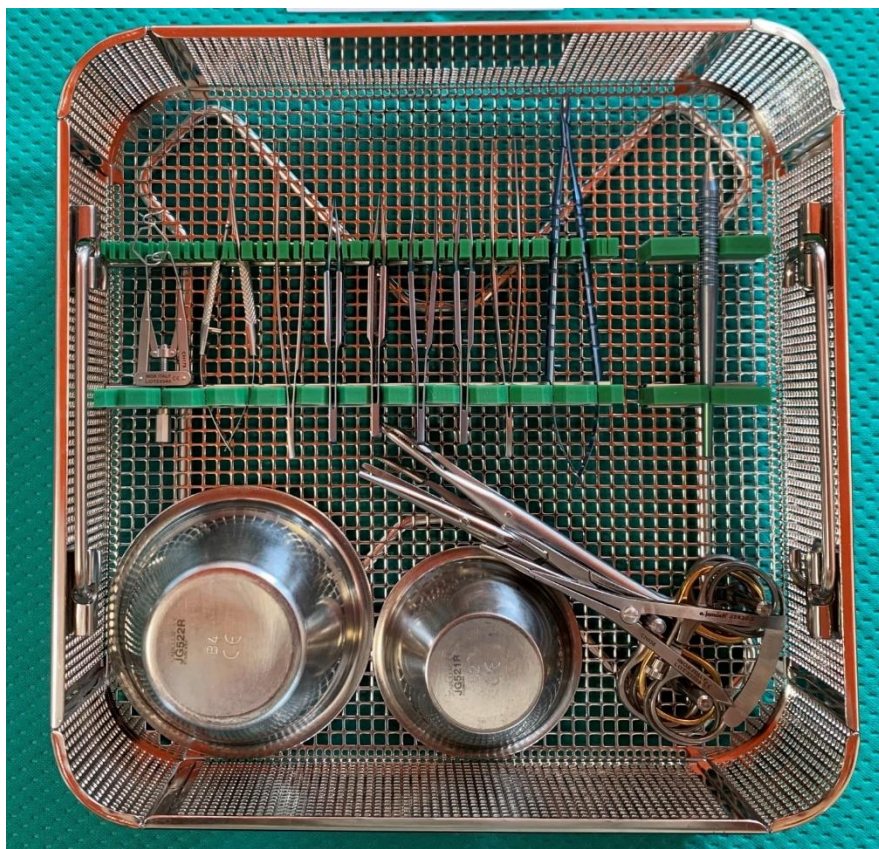

TRANSPLANT BASE	Art.	71KIT-14
------------------------	-------------	-----------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x70h mm COMPLETE WITH LID with HANDLE, 4 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Specific Features:

- Dimensions: 240x240x70h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 4 removable supports
- 3 stainless steel pins for positioning ring instruments
- Recommended packaging: 1/2 US container 300x300 or soft packing

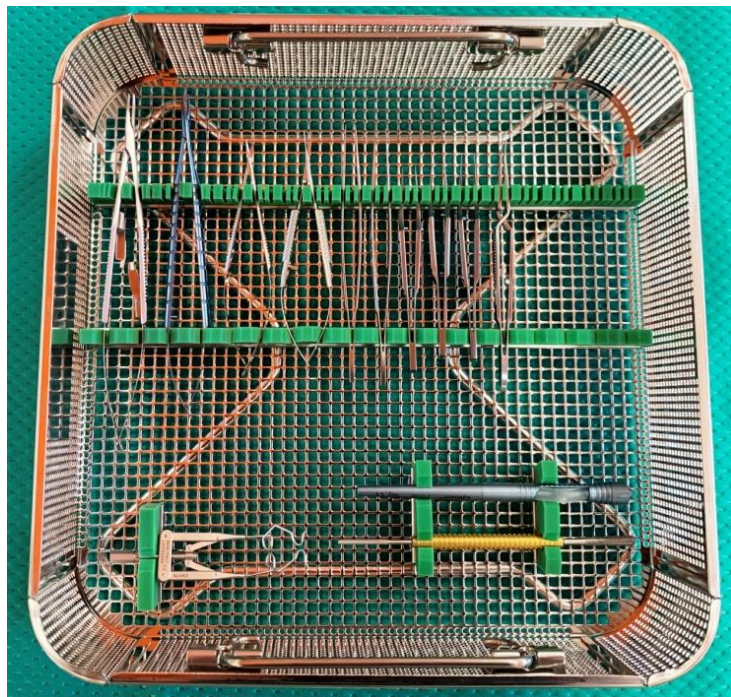

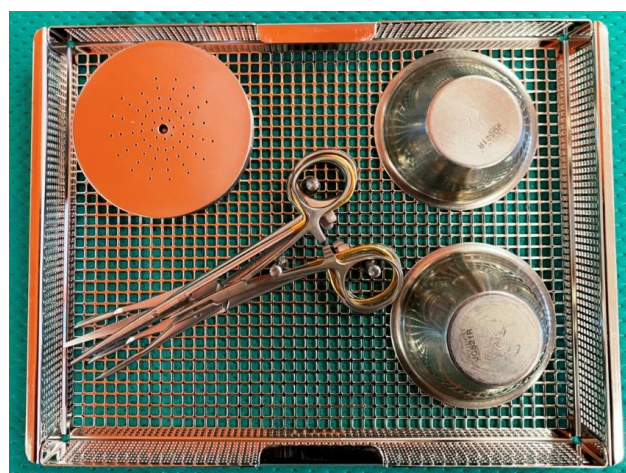

VITRECTOMY	Art.	71KIT-10
-------------------	-------------	-----------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x70h mm COMPLETE WITH LID with HANDLE, INTERNAL TRAY, 5 REMOVABLE SILICONE SUPPORTS, 3 PINS and BOX FOR CANNULAS

Basket base (standard lid)

Upper inner tray

Specific Features:

- Dimensions: 240x240x70h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- Upper inner tray made of stainless steel AISI304
- 5 removable supports
- 3 stainless steel pins for positioning ring instruments
- Circular perforated box for cannulas
- Recommended packaging: 1/2 US container 300x300 or soft packing

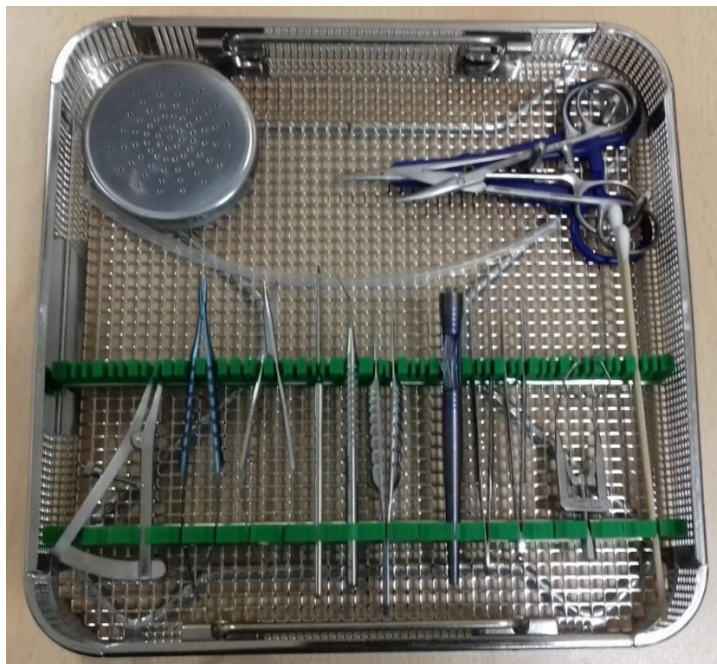

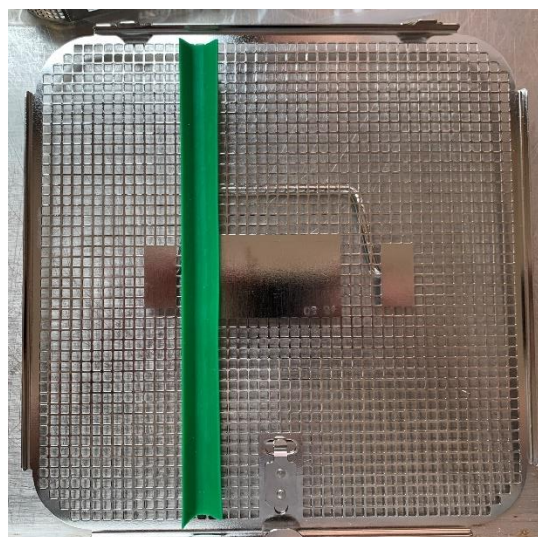

VITRECTOMY	Art.	71KIT-4
-------------------	-------------	----------------

Description:

STAINLESS STEEL BASKET L.F. 240x240x41h mm COMPLETE WITH LID with HANDLE, 2 REMOVABLE SILICONE SUPPORTS, 3 PINS, BOX FOR CANNULAS and SILICONE SOFT LIP

Basket base

Cover with silicone soft lip

Specific Features:

- Dimensions: 240x240x41h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- 2 removable supports
- 3 stainless steel pins for positioning ring instruments
- Circular perforated box for cannulas
- 1 removable silicone soft lip in the lid
- Recommended packaging: 1/2 US container 300x300 or soft packing

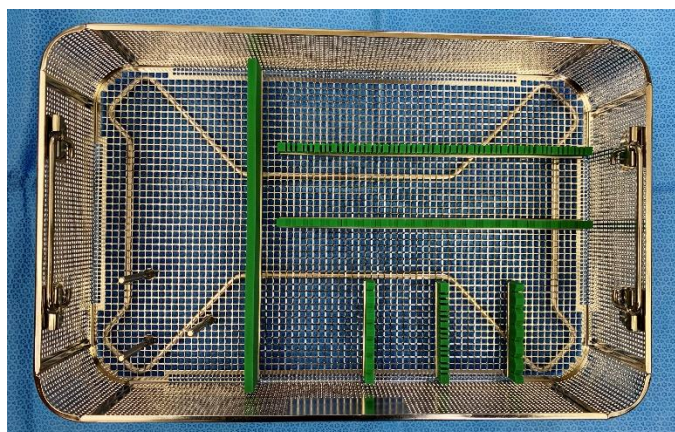

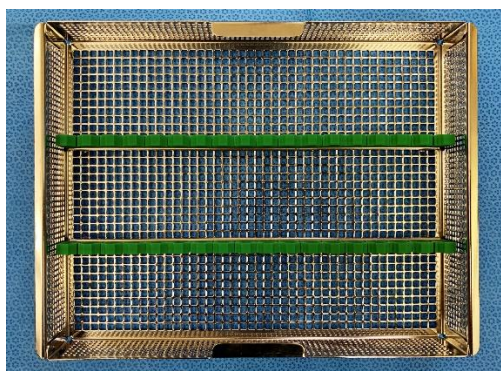

VITRECTOMY	Art. 73KIT-9
-------------------	---------------------

Description:

STAINLESS STEEL BASKET L.F. 380x240x90h mm COMPLETE WITH LID with HANDLE, INTERNAL TRAY, 8 REMOVABLE SILICONE SUPPORTS and 3 PINS

Basket base (standard lid)

Upper inner tray

Specific Features:

- Dimensions: 380x240x90h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- Upper inner tray made of stainless steel AISI304
- 8 removable supports
- 3 stainless steel pins for positioning ring instruments
- Recommended packaging: 3/4 US container 460x300 or soft packing

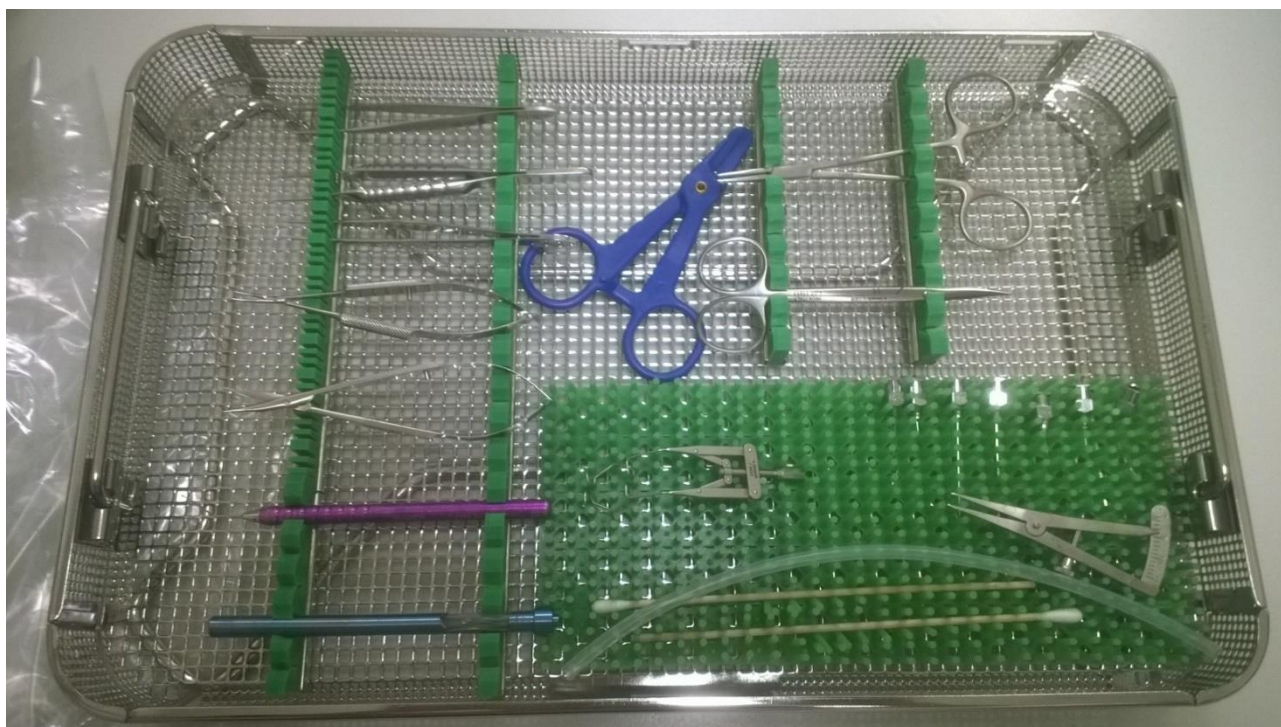

VITRECTOMY	Art. 73KIT-10
-------------------	----------------------

Description:

STAINLESS STEEL BASKET L.F. 380x240x41h mm COMPLETE WITH LID with HANDLE, 5 REMOVABLE SILICONE SUPPORTS, MAT, 2 SILICONE SOFT LIPS, 5 PINS and CANNULAS BOX

Basket base (standard lid)

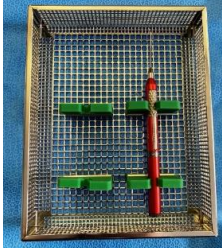

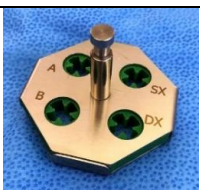

Specific Features:

- Dimensions: 380x240x41h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid and without internal tray
- 5 removable supports
- 1 multi-perforated silicone mat
- 2 removable silicone soft lips in the lid (1xW=220 mm + 1xW=130 mm)
- 5 stainless steel pins for positioning the ring tools and locking the mat
- Circular perforated box for cannulas
- Recommended packaging: 3/4 US container 460x300 or soft packing

WASHER-DISINFECTOR WASHING SOLUTION

Art. 77KIT-22

Description:

STAINLESS STEEL BASKET L.F. 270x170x35h mm COMPLETE WITH LID with HANDLE, 4 REMOVABLE SILICONE SUPPORTS, MAT, 2 SILICONE SOFT LIPS and 2 PINS

Basket base + lid with silicone soft lip

Removable silicone mounts to lock 2 cannulated instruments

Basket base equipped with PASSAGE HOLES FOR WASHER-DISINFECTOR WASHING TUBES (2 holes for each corner of the basket, total 8 holes)

Specific Features:

- Dimensions: 270x170x35h mm
- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base without grab handles
- 4 removable supports
- 1 multi-perforated silicone mat
- 2 stainless steel pins to lock the mat
- 2 silicone soft lips
- Basket base with 8 passage holes for washer-disinfector washing pipes
- if used for sterilization, recommended packaging: MINI container series 285x185 or soft packaging

Solution B: **Grill with Mat and silicone soft lip in the lid**

Set > 24 Irons - Specifications:

- Complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- Basket base with grab handles
- Multi-perforation silicone mat
- Removable silicone soft lips
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement, allows stacking and a smoother load on the washer-disinfector trolleys
- stackable baskets without lid
- Recommended packaging: 1/2 US, 3/4 US or 1 US container 300/460/600x300 (depending on the size of the grid) or soft packaging

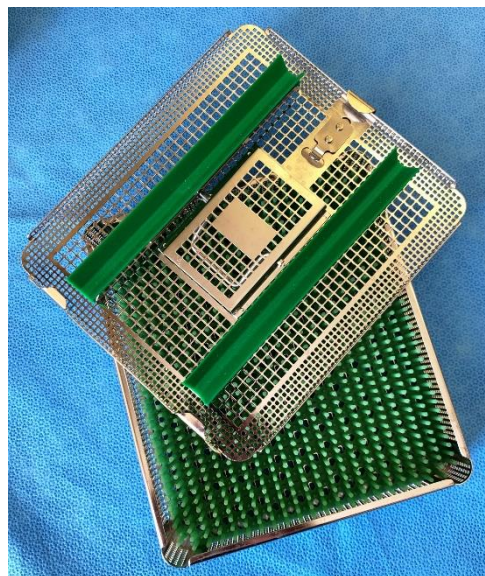

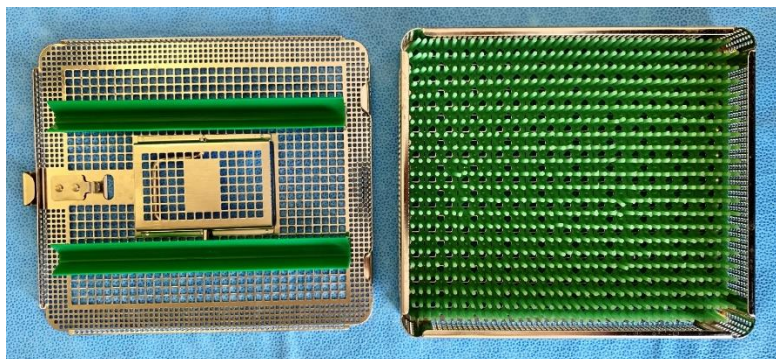

Set ≤ 12 irons - Specific Features:

- Complete with standard lid with recessed handle
- art. 77TH-P complete with flat lid with central grip handle
- Handle made of stainless steel AISI304
- art. 63MDL, 67M and 63T without grab handle
- Basket base without grab handles
- Multi-perforation silicone mat
- silicone soft lips fixed in the lid
- art. 76TL with removable silicone soft lips
- recommended packaging: MINI container series 285x185 or soft packaging

Art. 77/2-WMS

Features Specifications dim. 240x240:

- Complete with flat lid with central grip handle. The lid is hinged and cannot be detached from the base
- Handle made of stainless steel AISI304
- Basket base without grab handles
- stainless steel wire foot (h = 6 mm) positioned at the base of the basket. The foot acts as a reinforcement and allows a smoother load on the washer-disinfector trolleys
- "double shelf" version with removable internal shelf made of stainless steel AISI304
- Multi-perforated silicone mats
- removable silicone soft lips (in the "double shelf" version there are 2 on the lid and 2 on the bottom shelf)
- Recommended packaging: 1/2 US container 300x300 or soft packing

Features Specifications dim. 270x170:

- Complete with flat lid with central grip handle. The lid is hinged and cannot be detached from the base
- Handle made of stainless steel AISI304
- Basket base without grab handles
- "double shelf" version with removable internal shelf made of stainless steel AISI304
- Multi-perforated silicone mats
- removable silicone soft lips instrument (in the "double shelf" version there are 2 on the lid and 2 on the bottom shelf)
- recommended packaging: MINI container series 285x185 or soft packaging

Producer:	C.B.M. SRL
Product Origin:	Made in Italy
Conformity:	Regulation 2017/745/EU "Medical Devices", class I
Quality Standards:	UNI IN ISO 13485:2021
Guarantee:	24 months
Packaging Type:	container or soft packing
Sterilization mode:	Steam & Low Temperature
Pieces per pack:	1
Primary packaging:	Single polyethylene bag or single carton box with information label for packaging

Use:

The perforated sheet metal baskets complete with internal accessories are used for the positioning of ophthalmology instruments. They adapt perfectly to every need and are essential during the various phases of the sterilization process (decontamination, washing (ultrasonics and washer-disinfectors), packaging, sterilization, handling and storage of surgical devices. In fact:

- are entirely made from perforated stainless steel sheet AISI304
- Thanks to the smooth surfaces, the absence of edges and the rounded corners, the basket guarantees maximum safety for the user during handling and avoids any possibility of breakage of the packaging, soft packaging and sterilization bags
- The basket is electropolished. This external finish avoids changes in the colour of the basket due to high temperatures during the sterilization cycle and inhibits the formation of water stagnation
- The perforation gap of the base of the basket and the lid is made up of 4x4 mm holes, in order to allow better water penetration during the washing phases and a better drainage capacity. The perforation gap on the sides of the basket is 2x2 mm. The washing process is further facilitated by the fact that the drum is free of shaded areas
- The basket is supplied complete with a lid with a simple and easy closure and a carrying handle. The predisposition for anchoring and fixing the lid is placed on both sides of the basket
- The extremely low weight, thanks to the special production technique, guarantees high comfort during handling and high performance in the drying phase in automatic washing machines
- The design of the silicone instrument holder supports ensures maximum safety and the best handling during the handling of the device
- The simultaneous use of silicone and stainless steel makes it possible to deal with all the processes of decontamination, washing and sterilization with steam and low temperature
- The removable silicone mounts are attached to the body by means of two low-profile stainless steel head screws AISI304
- As for the sterilization process, the basket can be placed in a rigid container or in soft packaging.

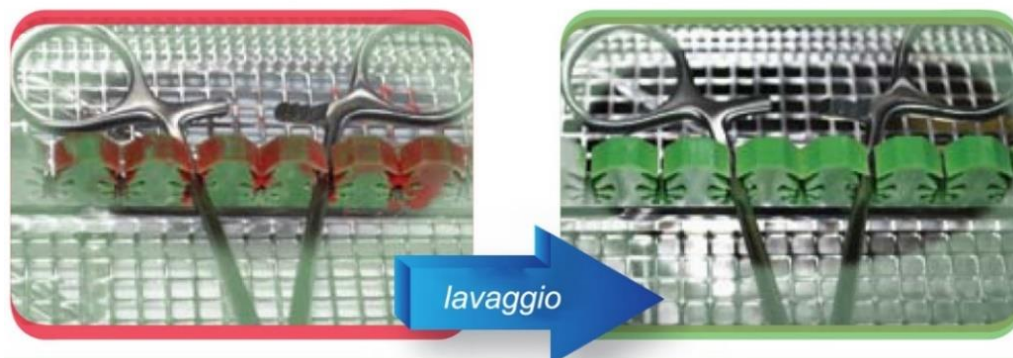

Therefore...

- *Safe and perfect positioning of microsurgery instruments*
- *Organize tools quickly and easily*
- *immediate creation of kits by type of intervention*
- *use of resistant and high-performance materials (stainless steel and silicone)*
- *elimination of damage caused to the instrumentation by continuous handling*
- *Outstanding results after washing*
